PREPARATION COATS & PRIMERS

R1599.00

Plascon
Professional Gypsum & Plaster Primer 20L

Features

- Offers strong adhesion for a reliable base.
- Compatible with both solvent- and water-based topcoats.

Intended Uses

- Acts as a primer on alkaline surfaces such as cement plaster and concrete.
- Serves as a binding and sealing coat on soft or brittle plaster, porous paper-faced board, brickwork, soft board and gypsum plaster.

Caution/Tips

- Allow new plaster to dry for at least 28 days before applying the primer.

R1599.00

Plascon
Plaster Primer 20L

- Provides strong adhesion for a reliable base coat.
- Suitable for both solvent- and water-based topcoats.
- Acts as a primer on alkaline substrates such as interior and exterior cement plaster and concrete.
- Functions as a binding and sealing coat on soft or porous surfaces including paper-faced board, brickwork, soft board and gypsum plaster.

R499.00

Plascon
Plaster Primer 5L

- Excellent adhesion for a strong, lasting foundation.
- Compatible with both solvent- and water-based topcoats.
- Ideal as a primer on alkaline surfaces such as interior and exterior cement plaster and concrete.
- Serves as a binding and sealing coat on soft or porous surfaces like paper-faced board, brickwork, soft board and gypsum plaster.
